# Introduction to Tablerock Survey

Tablerock Survey is a Houston, Texas based full service land survey, right of way, and oil & gas project management company. Tablerock serves multiple industries throughout North America, while primarily focusing on oil & gas pipelines, electric transmission lines, public works, and renewable energy projects. Our professionals are dedicated to providing exceptional service, creative solutions, and successfully delivering on all aspects of a project. We have the proven ability to complete projects on schedule, within budget and with a high degree of accuracy and quality.

## Midstream Expertise

Tablerock specializes in all aspects of the midstream pipeline industry. Our Registered Professional Land Surveyors (RPLS) have successfully completed projects ranging from small gathering lines to major interstate transmission pipelines. We have vast experience dealing within various shale plays throughout the US; such as the Marcellus, Utica, Bakken, Barnett, Eagle Ford, Niobrara, and Permian.

## SURVEY SERVICES

### PIPELINE/BOUNDARY SURVEY

- Existing Facilities/Utilities
- Certified Boundary
- Electric Transmission & Corridor Mapping
- Unit Well Location & Layout
- Detailed Center Line
- Topographic
- Wind & Alternate Energy
- Regulatory
- Road, Railroad, River Crossing
- Depth of Cover
- Population Density

### AS-BUILT/CONSTRUCTION SURVEY

- Preconstruction Staking
- Mainline Pipeline Construction/Record Survey
- Fabrication Surveys
- Material Close-outs

### PIPELINE INTEGRITY

- Easement Integrity & Rectification Surveys
- Above Ground Markers
- Pig Runs and Pig Timings
- Leak Detection
- Anomaly Stakings and Dig-Ups
- Hydrotest Survey
- Depth of Cover

### CONSULTING SERVICES

- Data Acquisition
- Survey Project Management
- Survey Inspection
- Survey Auditing

## ADDITIONAL MARKETS SERVED

### PUBLIC WORKS

Tablerock Survey provides Regulatory, Relocation, and Class Location Surveys for projects financed and constructed by the government. These Public Works projects have included bridges, roads, dams, railroads, and other physical assets and facilities. All of our projects are ensured to be completed on-time, within budget and adhere to all regulatory mandates.

### ELECTRICAL TRANSMISSION LINES

Our survey professionals have a successful track record of providing top quality survey services for several electrical transmission line projects around the United States. From project pre-planning, preliminary route selection, corridor mapping and right of way support, Tablerock offers solutions for every survey need. We know what it takes to get the job done on time and under budget.

### RENEWABLE ENERGY

Tablerock Survey is firmly committed to building a sustainable future for coming generations. We are continually searching out new opportunities to provide survey services to companies as committed to providing energy from renewable sources as we are. Tablerock Survey strives to stay on the cutting edge of the industry, which includes finding and providing new sources of energy in order to build a stronger and more sustainable economy.

### PARTNERSHIPS

Tablerock has several long-lasting partnerships across the country that have proven success completing various capital projects; including engineering, environmental, routing, and public/governmental relations. Tablerock has the capability to perform or manage any and all aspects of your capital project. Our years of experience working with all disciplines required to complete a successful project have ingrained a philosophy of teamwork throughout our organization.

### DATABASE/MAPPING /GIS

With multiple right of way databases and GIS project management systems currently in use throughout the industry, our professionals are educated in using and managing any of the systems that our clients utilize or prefer. If required, Tablerock can implement its own system that can be easily adapted to meet the specific project needs of its clients.
